

# The best investment you can make when moving home

We provide a personalised destination service that allows us to take the worry out of getting you to your new home.

Leave the home searching, negotiating, organising, and moving to us. Take one of our customised orientation packages to familiarise you with Sydney or Melbourne's local communities, schools and your new lifestyle.

Let us assist you with buying a property for investment purposes or for your new residence.

## Buying Service

As a qualified "Buyers Agent" and our experience in the Sydney market we can take the emotional stress out of buying a home and the pain out of the many hours required in identifying potential properties.

We provide the best valued service to homebuyers in assisting them in finding a property that best fits their needs at the best negotiated price, saving the homebuyer both time and money.

We determine your property requirements (either to live in or for investment purposes) and only present information on those properties that meet your criteria of purchase.

Once we have short-listed the potential property(s) we will negotiate the purchase either privately or via auction saving you time and effort.

Whether you are a local to Sydney or not, the Sydney property market is one we know well and can help you to purchase a home and \ or investment suited to your lifestyle.

## Relocating Service

Our relocation service has been specially designed for busy corporate executives whether from overseas, interstate or just from out of town.

- Organising temporary accommodation
- Arranging pick up from the airport
- Personalised orientation program
- Providing a home find service
- Negotiating leases
- Assist with temporary furniture
- Incoming and outgoing inspections
- Organise packing and unpacking
- Connection of utilities
- Provide information on local schools
- Ongoing support during your stay

Throughout this process you and your family will be given invaluable assistance in understanding local culture and customs, thus ensuring the entire move is as stress free as possible.
